

DJURSLINN JAMES

BCA Graduate | Full Stack Developer

Kottayam, Kerala | djurslinnjameskm@gmail.com | +91 7559947412 | linkedin.com/in/djurslinn-james | github.com/djurslinn

SUMMARY

BCA graduate and Full Stack Developer with hands-on experience in building web applications and software solutions using Python, Django, React.js, PHP, and SQL databases. Developed multiple full-stack and AI-powered projects, gaining practical knowledge in frontend and backend development, database management, and problem-solving. Passionate about learning emerging technologies, working on real-world projects, and contributing to innovative solutions while growing in a collaborative development environment.

TECHNICAL SKILLS

Programming Languages	Python, Java, C/C++, JavaScript, PHP
Web Technologies & Frameworks	HTML5, CSS3, Django, React.js, Next.js, REST APIs, MySQL, PostgreSQL
Tools & Platforms	Git, GitHub, Android Studio, VS Code, Figma
Core Concepts	OOP, DBMS, DSA, SDLC, System Design, GenAI, Agentic AI

PROJECTS

Campus Placement Training System — Python (Django) | PostgreSQL — [Project Link](#)

- Built a full-stack placement training platform supporting student training and coordinator insights.
- Developed progress dashboards enabling students and Coordinators to track performance and placement readiness.
- Integrated AI-powered evaluation to generate personalized feedback across resume analysis, interviews, and assessments.

Turf Booking Web Application — PHP | MySQL — [Project Link](#)

- Built a real-time turf booking platform with secure authentication and a normalized MySQL database supporting concurrent reservations.
- Implemented features such as user authentication, role-based dashboards, and Chart.js-based analytics for booking trends.

EXPERIENCE

UI/UX Design Intern — [Pacelab, Kochi](#)

05/2025 – 06/2025

- Designed 5+ UI pages and interactive Figma prototypes for a college book rental app as part of a team project.
- Created user workflows and empathy maps while gaining hands-on experience in UI/UX fundamentals and teamwork.

Advanced Software Engineering Simulation — [Walmart Global Tech \(Forage\)](#)

05/2026

- Built optimized Heap data structure and designed UML/ER models for logistics system.

GenAI Data Analytics Simulation — [Tata \(Forage\)](#)

04/2026

- Used GenAI and prompt engineering to extract insights and generate recommendations.

EDUCATION

BCA — Bachelor of Computer Applications — [St. Thomas College, Palai \(MG University\)](#)

2023 – 2026

CGPA: 8.16 / 10

Higher Secondary — Science — [St. Michael's HSS Kaduthuruthy, DHSE Kerala](#)

2021 – 2023

Score: 86.83%

CERTIFICATIONS

IBM Full Stack Software Developer Professional Certificate | 5-Day AI Agents Intensive Course - Google AI | Google AI Professional Certificate | Certified Cyber Security Analyst - RedTeam360

TECHNICAL ACHIEVEMENTS

- Volunteered at college tech fest (OS Exhibition), assisted setup and explained 50+ OS features through live demos in lab.
- Developed 10+ full-stack and AI-based projects on GitHub, showing strong practical development experience.

SOFT SKILLS

Problem Solving, Team Collaboration, Communication, Adaptability, Time Management

LANGUAGES

English (Proficient) | Malayalam (Native)
